Assignment 3.2

Henri Heyden, Nike Pulow

stu240825, stu239549

1.

I don't know how to make cornered edges in a tikzpicture automata, but this should suffice. The numerics describe in which line we currently are, if there is an if or else block. Note that if `fork()` returns a value subzero, then the further execution of this path will fail and this picture will not make sense.

2.

- a) False
- b) True
- c) False
- d) False
- e) False
- f) True

3.

TODO. Möglich das Diagramm davor zu rotieren, zu verschieben und einen Pfad als rote Pfeile zu markieren.
